CTA ROOFING
COMMERCIAL ROOFING CONTRACTORS

client testimonial

"Christopher is truly the 'roof whisperer'. The roof of our new building was leaking in several spots and our contractor and other roofers could not fix it. Christopher came in and found the problems immediately, fixed it and we have not had any problems again."

client testimonial

“I received bids and talked to four roofers then I met Christopher Alexander from CTA roofing. Chris came across as an honest and reliable person so we chose his company to perform the job. Before he started the job he took the time to do thermo scans and core samples so there would not be any extra cost overruns.”
